The main supplier of the presorting bins is our partner
MATTIUSSI ECOLOGIA S.P.A. www.mattiussiecologia.com

Technical modifications reserved. Mounting accessories obtainable
as extras on request. Protected design and structural features. Non
standard colours and materials on request. Please see our data
sheets for further details.

FUNCTIONAL

Fruit and vegetable scraps, tea and coffee filters, eggshells, flower soil - these are but a few examples for bio-waste in households. They belong in the bio-waste container as they minimize the quantity of residual waste this way and make a major contribution to the circular flow economy by being composted.

THOUGHT-OUT

The separation of recyclable material is becoming increasingly important. In order to sustain our exhaustible resources the separation of recyclables should be taken care of in offices and community facilities, too.

PRACTICAL

Used cooking oil often ends up in the sewerage giving rise to scaling, blockage and corrosions. Used cooking oil has been collected for years in great quantities to become a valuable raw material of the bio diesel industry.

WHERE DOES WASTE OCCUR?

KITCHEN

FRUIT AND VEGETABLE WASTE
COFFEE FILTERS, TEA BAGS
LEFTOVERS

HOUSEHOLD

NON-RETURNABLE JARS AND BOTTLES,
PAPER PACKAGING, NEWSPAPERS
PLASTICS AND METALS, CANS

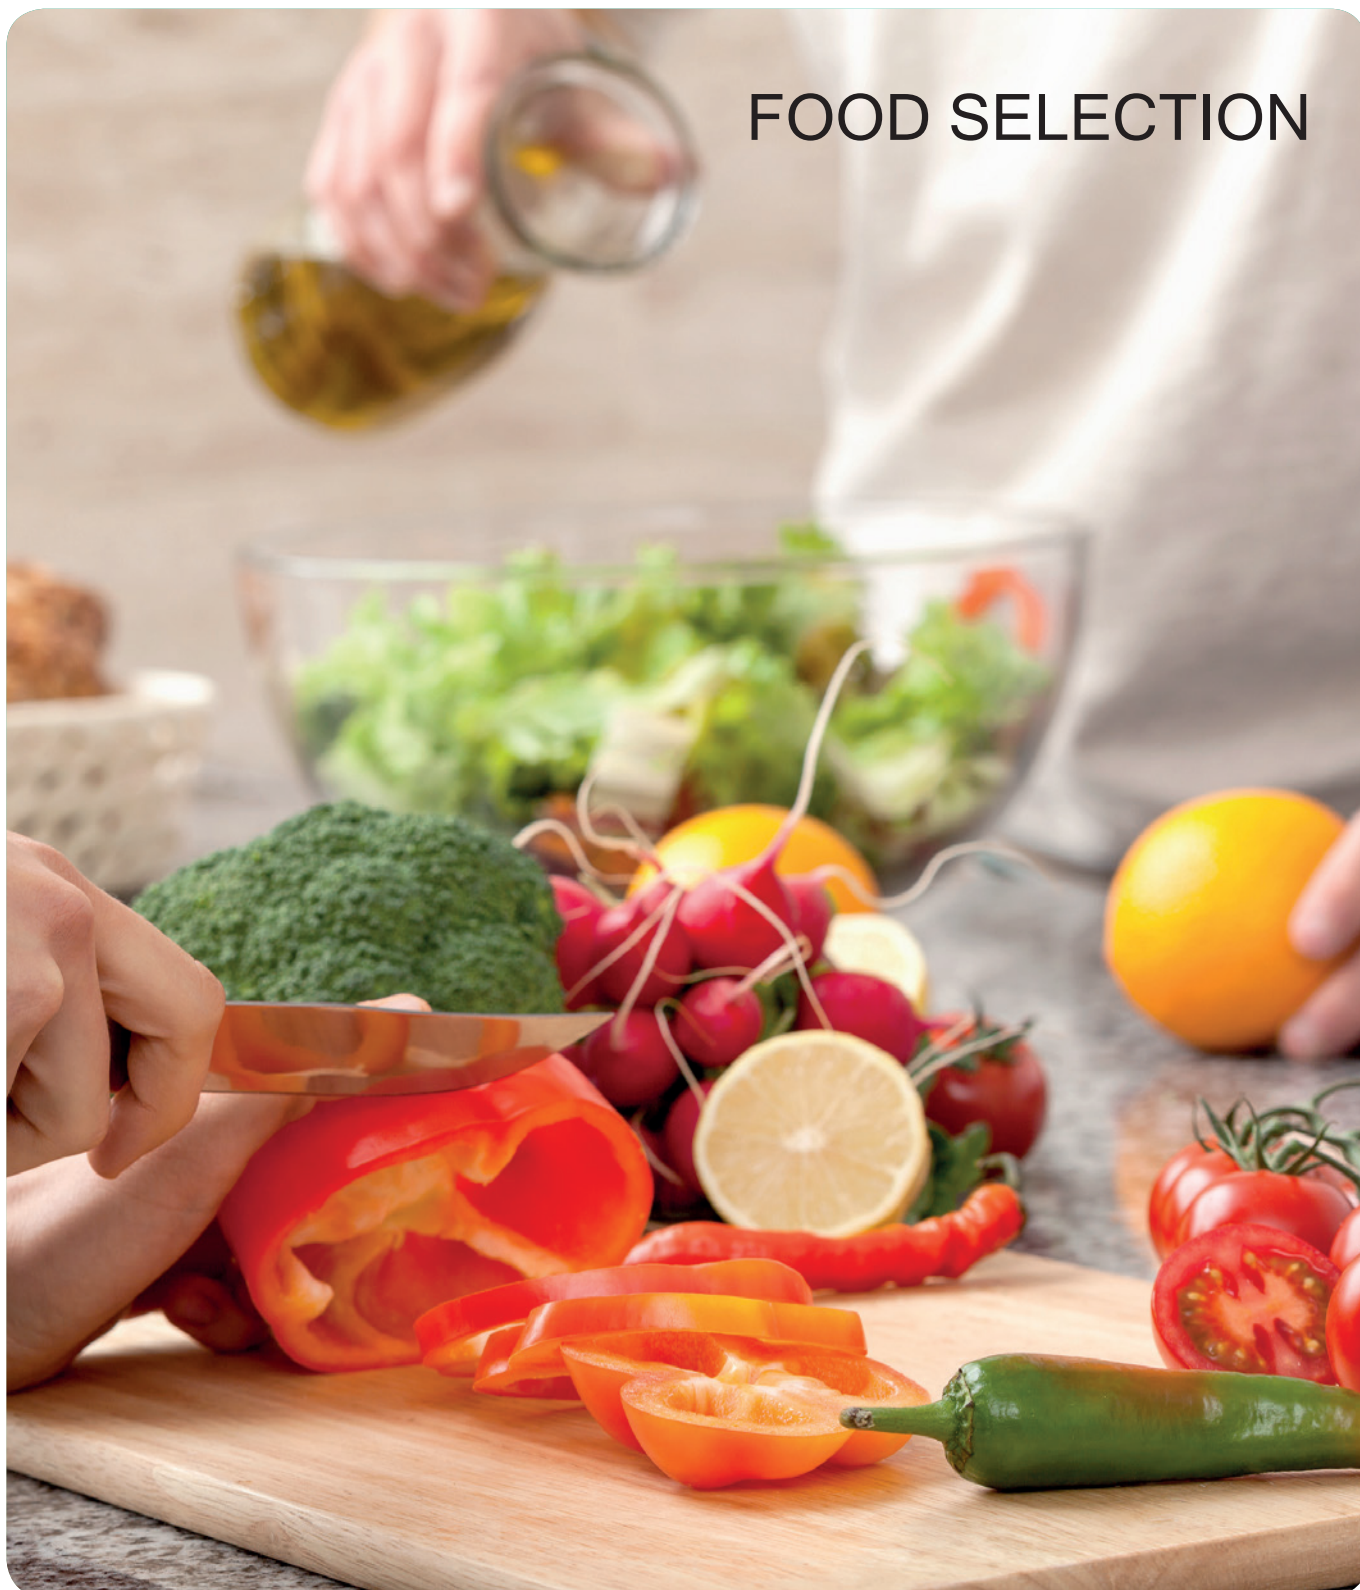

OFFICE

PAPER
PLASTICS
SPECIAL WASTE, BATTERIES

TERMINAL

PAPER, GLASS
PLASTICS
RESIDUAL WASTE
